

3D BIM MODELER

Sewall is a full-service engineering, survey, GIS, and forestry consulting firm in its 141st year of business. Headquartered in Old Town with offices in Yarmouth and Caribou, Maine, we provide professional services to a wide variety of private- and public-sector clients throughout the United States. Currently we have an opening for a 3D BIM Modeler. This is an opportunity for the right candidate to be a part of a dynamic, high performing team with a reputation for knowledgeable, quality service and long-term client relationships.

The successful candidate will have the following skills and experience:

- Associates degree or higher in 3D Modeling, Drafting, Structural Engineering or related field
- 2+ years' working experience in a production environment associated with computer-based modeling
- 2+ years of recent, progressive, and practical Revit experience
- 2+ years using Trimble Business Center and Trimble Realworks
- Proficiency in AutoCAD Civil3D
- Experience working with point cloud data in a structural modeling environment
- Competency modeling from LiDAR and point cloud datasets using REVIT and AutoCAD platforms
- Familiarity with building structural components and Mechanical, Electrical, and Plumbing systems (MEP)
- Ability to complete tasks efficiently, working effectively with general instructions and proper supervision
- Ability to apply strong interpersonal skills with the project team to effectively communicate project details

We offer a competitive salary and a comprehensive benefits package.

Interested candidates should submit a cover letter and a resume outlining experience and credentials to Rachel.Foley@sewall.com. If you need assistance or an accommodation during the application process because of a disability, please contact Rachel Foley, Human Resources, at (207) 817-5475.

Sewall is an Equal Employment/Affirmative Action Employer.
